Please delete the paragraph beginning on page 16, line 11, and insert the following:

Figures 4A-4B illustrate a high level flow chart which depicts monitoring for a presence of a service application, and reporting any loss of the service application in accordance with the present invention. The process starts as depicted by block **400** and thereafter passes to block **402** which illustrates booting the data processing system. Next, block **404** depicts the service processor checking for a hardware management console heartbeat generated by the service application being executed by the hardware management console. Thereafter, block **406** illustrates a determination of whether or not a heartbeat was detected. If a determination is made that a heartbeat was detected, the process passes to block **408**.

REMARKS

These amendments were made to reflect references to the figures in the formal drawings. Specifically, when formal drawings were created, Figures 4A-4B were required to reflect the content in original Figure 4 in order to meet the drawing requirements. No new matter has been added by these amendments.

Date: December 3, 2001
